

IN THE CLAIMS

Please cancel claims 7 and 9, amend claims 8, 10, 11 and 12 and add new claims 13 and 14 as follows:

Claims 1-7. Cancelled

8. (Currently Amended) A turbine power plant according to ~~claim 7~~ claim 11, wherein said height-adjusting apparatus forms a space for maintenance operation under said common base by raising said common base mounting thereon said power generation apparatuses.

Claim 9. Cancelled

10. (Currently Amended) A turbine power plant according to ~~claim 7~~ claim 11, wherein said height-adjusting apparatus for adjusting the height of said common base is constructed to be used as a jack for installation of said common base.

11. (Currently Amended) A turbine power plant ~~according to claim 7~~, comprising:

a common base for mounting thereon power generation apparatuses, said common base being constructed so as to be used as a part of a transportation vehicle and a support frame for installation of said power generation apparatuses;

a height-adjusting apparatus for supporting said common base and adjusting the height of said common base mounting thereon said power generation apparatuses; and

wherein said common base is provided with a lengthwise sliding mechanism for moving said power generation apparatuses mounted on said common base in a length direction of said common base.

12. (Currently Amended) A turbine power plant ~~according to claim 7,~~ comprising:

a common base for mounting thereon power generation apparatuses, said common base being constructed so as to be used as a part of a transportation vehicle and a support frame for installation of said power generation apparatuses;

a height-adjusting apparatus for supporting said common base and adjusting the height of said common base mounting thereon said power generation apparatuses; and

wherein said common base is provided with a width-wise sliding mechanism for moving said power generation apparatuses

mounted on said common base in a width direction of said common base from a side position along the length direction of said common base.

13. (New) A turbine power plant according to claim 12, wherein said height-adjusting apparatus forms a space for maintenance operation under said common base by raising said common base mounting thereon said power generation apparatuses.

14. (New) A turbine power plant according to claim 12, wherein said height-adjusting apparatus for adjusting the height of said common base is constructed to be used as a jack for installation of said common base.
